SUPER DUKE 1290 GT

The 1290 Super Duke R got us thinking. What if we could match The Beast’s interstellar performance to all day, two-up comfort? What if we would train the most dynamic naked bike ever to race any paved road the world has on offer? Regardless of the weather. Over and over again. So we brought out the big guns, aiming for state-of-the-art ergonomics, electronics and extreme stamina. The result is a long distance V-twin rocket that proudly roars past the top of the food chain, hungry for more. For miles. The faster, the better. A motorcycle that is equally happy hunting horizons, as it is chasing superbikes. And crushing them – not only at cruising speeds. Welcome to the world of the **1290 Super Duke GT**, where refinement, comfort, speed and ultimate performance rule.

Technical details

Dimensions (wheelbase):	1482
Seat height / Ground clearance:	835 / 141
Weight:	209
Fuel tank capacity:	23
Fuel consumption (l/100 km):	5.99
CO2 emission (g/km):	139
Cooling type:	Liquid-cooled
Engine capacity cm³:	1301
Engine torque:	141
Cylinder / Cylinder diameter:	2 / 108 x 71
Stroke / Compression ratio:	4 / 13.6:1
Starter:	Elektric
Transmission:	MT6
Front suspension travel:	125
The rear suspension travel:	156
The front brake / The rear brake:	2 x Brembo monoblock four-piston radial fixed calliper, brake discs, floating Ø 320 mm / Rear brake Brembo twin-piston fixed calliper / Disc Ø 240 mm
