XWOLF XWOLF 1000 L MUDDY V-TWIN EPS

To lead off-road, you need two things: courage and a twin-cylinder 1000 cc engine producing nearly 100 hp.

The **XWOLF 1000 MUD** is the most powerful model in the series, built for extreme mud and technical terrain. The XWOLF delivers 99.2 hp and 101 N·m, providing strong and smooth traction in any conditions.

MUD version advantages:

- raised radiator and air intake for better cooling and safe operation in deep mud;
- reinforced skid plates for greater protection in forests and technical trails;
- the large 35-litre fuel tank allows up to 450 km without refuelling.

The vehicle has T3B certification and can be registered and used on public roads. The driver must hold a category B licence.
